## **The Gathering: A Journey of Healing and Transformation**

Together we will creatively share new and traditional ways to weave restorative justice philosophy and practices into all aspects of our world: personal, interpersonal, community, systemic and structural. Help us rethink the meaning of “justice”; promote anti-racist laws, policies, and practices; seek equitable recovery from the pandemic, and, work toward safe, just, equitable and livable communities.

Join us in Chicago and experience many wonderful opportunities to learn from each other, immerse in community, create lasting relationships, and put community and restorative justice into action.
